Brochure of the Self-Study Course

Title: Curriculum Design and Development

INTRODUCTION: The self-study course on Curriculum Design and Development in AKSSM Shevgaon is designed for educators who want to improve their curriculum development skills and create effective and engaging educational programs. This course provides a comprehensive overview of curriculum design and development and offers practical tools and strategies to help educators create high-quality educational programs.

PURPOSE: The purpose of this course is to equip educators with the knowledge and skills to design and develop effective educational programs. Through this course, participants will gain a deeper understanding of curriculum design principles, learn how to create engaging and meaningful learning experiences, and develop the necessary skills to assess and evaluate educational programs.

COURSE LEARNING OUTCOMES: By the end of this course, participants will be able to:

- Understand the principles of curriculum design and development
- Create engaging and meaningful learning experiences
- Develop appropriate assessment and evaluation strategies
- Incorporate technology into the curriculum design process
- Collaborate effectively with other educators to design and develop educational programs
