Policy Document of AKSSM Shevgaon for the Development of Adequate Education in Students for Effective Use of ICT for Teaching Learning Process:

Introduction: AKSSM Shevgaon is committed to providing quality education to its students and equipping them with the necessary skills and knowledge to succeed in their professional careers. In today's digital age, the effective use of Information and Communication Technology (ICT) is essential for successful teaching and learning. Therefore, the college has developed a policy document for the development of adequate education in students for effective use of ICT for teaching and learning processes.

Policy Statement: AKSSM Shevgaon is committed to the development of adequate education in students for effective use of ICT for teaching and learning processes. The college will provide training and support to students to develop the necessary skills and knowledge to effectively integrate ICT into their teaching and learning processes. The college will also ensure that adequate resources and infrastructure are available to support the use of ICT in teaching and learning.

Objectives:

1. To provide training and support to students to develop the necessary skills and knowledge to effectively integrate ICT into their teaching and learning processes.
2. To ensure that adequate resources and infrastructure are available to support the use of ICT in teaching and learning.
3. To encourage and support innovation in the use of ICT for teaching and learning.

4. To promote the use of open educational resources and other freely available digital resources to support teaching and learning.
5. To ensure that all students have access to appropriate digital tools and devices for learning.

Strategies:

1. The college will provide training and support to students on the effective use of ICT for teaching and learning.
2. The college will provide access to appropriate digital tools and devices for learning.
3. The college will ensure that adequate resources and infrastructure are available to support the use of ICT in teaching and learning.
4. The college will encourage and support innovation in the use of ICT for teaching and learning.
5. The college will promote the use of open educational resources and other freely available digital resources to support teaching and learning.
6. The college will establish a system for monitoring and evaluating the use of ICT in teaching and learning.
7. The college will establish partnerships with other institutions and organizations to share knowledge and resources on the effective use of ICT for teaching and learning.

Conclusion: AKSSM Shevgaon is committed to the development of adequate education in students for effective use of ICT for teaching and learning processes. The college recognizes the importance of ICT in today's digital age and is committed to providing the necessary training and support to students to develop the necessary skills and knowledge to effectively integrate ICT into their teaching and learning processes. The college will also ensure that adequate resources and infrastructure are available to support the use of ICT in teaching and learning.
